EXPERIENCE

Care2Care UX Research & Design — Jan 2026 – Present

University of Pittsburgh & UPMC Magee-Womens Hospital · support for caregivers of gynecologic oncology patients · team of 3

- Designed Care2Care, a caregiver mobile app and companion liaison web app, from research to tested prototype in 3 months; won funding to build it with UPMC (Lucie Young Kelly Faculty Leadership Award)
- Designed the app's AI features, including AI matching that tailors support to each caregiver's needs from onboarding, and a three-tier flagging system that routes caregivers to a live liaison
- Mapped patient journeys, interviewed patients, caregivers, nurses, and frontline staff, and shadowed the Family CARE Center, reframing the problem from hospital visits to caregivers' moments of uncertainty

OpenMined UX Designer, MHCI Capstone — Jan 2026 – Aug 2026

AI privacy & data-security nonprofit

- Led UX research and design for Kindred, a privacy-preserving AI health companion that checks a patient's own health information against scientific and medical evidence to answer their questions with personalized insights
- Designed AI trust features: verified peer matching, granular health-data consent controls, and a clinician-facing trust layer
- Ran 65 patient, clinician, and SME interviews, 50 speed-dating intercepts, and co-design with 11 participants; narrowed 36 use cases to one concept via a weighted framework (likelihood to use: patients 8/10, clinicians 8.5/10)
- Presented the roadmap to OpenMined's CEO and Principal Engineer, who carried it forward with AI Search and Community QA
- Continuing Kindred as an independent build, prototyping AI features in code with Claude Code, Cursor, and Vercel

Hydrific (LIXIL) Lead UX Designer — Mar 2024 – Jun 2025

IoT smart-home hardware startup

- Led design through launch: $114K+ raised on Kickstarter (2024) and 15,000+ users at retail today
- Owned core flows (onboarding, multi-home management, usage analytics); onboarded and led two designers
- Pitched UX strategy to executives and investors across three company reorganizations
- Awards: CES 2025 Innovation Awards Honoree, Grand One 2025 Gold (Best UX Design), Outstanding Achievement

Hydrific (LIXIL) Senior Specialist – UX Designer — Apr 2022 – Mar 2024

- Redesigned onboarding (OAuth, Bluetooth/WiFi) via ~30 interviews and 100+ usability tests, cutting install time by 20 minutes
- Designed the IoT water-monitoring product from pre-launch, turning raw sensor data into a leak-detection dashboard
- Built the product's design system from scratch and led Figma prototyping with a second designer

MeditationWise Co-Founder & Lead Designer — Jun 2021 – Present

Meditation & wellness app startup

- Co-founded MeditationWise and led the pivot from web-only to mobile to reach a younger audience
- Designed core flows and the full design system, partnering with engineering to ship to the App Store and Google Play
- Ran usability testing and 30+ user interviews to refine onboarding, navigation, and interface flows

PROJECTS

Configentic AI AI Agent Concept — Team project

- Designed an AI agent (Anthropic API) that turns meeting transcripts and Slack threads into PM next steps
- Designed confidentiality into the core flow so sensitive team conversations stay private

EDUCATION

Carnegie Mellon University Master of Human-Computer Interaction — Sep 2025 – Aug 2026

Northwestern University MS, Information Design & Strategy — Sep 2024 – Aug 2025

New York University BS, Integrated Digital Media, Minor in Psychology — Sep 2018 – Jul 2021

SKILLS

AI & Product AI Product Design, Human-AI Interaction, Prompt Engineering, LLM Prototyping, Generative AI
AI Tools Claude, Claude Code, Cursor, v0, Figma Make, Vercel; built umadhamija.com with Claude Code and Cursor
Research & Strategy User Interviews, Usability Testing, Co-Design, Journey Mapping, Product Strategy, A/B Testing
Design & Systems Interaction Design, Information Architecture, Design Systems, Prototyping, Accessibility (WCAG)
Technical & Tools HTML/CSS, JavaScript, GitHub, Figma, Framer, Webflow, Maze, Dovetail
